PERFORMANCE

Lazy Loading Images, Optimized Assets, Compressed Images, Minified CSS, Minified JS, Preload Fonts, Defer JavaScript, SEO Friendly HTML, Semantic HTML.

ACCESSIBILITY

Keyboard Navigation, ARIA Labels, Proper Heading Structure, Alt Tags, High Contrast, Readable Fonts, Accessible Forms.

SEO

Meta Title, Meta Description, Open Graph Tags, Twitter Cards, Favicon, robots.txt, sitemap.xml, Canonical URL, Structured Data (JSON-LD).

FOLDER STRUCTURE

moventra/ with pages: index.html, about.html, services.html, products.html, solutions.html, pricing.html, gallery.html, blog.html, faq.html, careers.html, downloads.html, contact.html; assets/css, assets/js, assets/images, assets/fonts, assets/vendor; robots.txt, sitemap.xml, favicon.ico, README.md.

UI/UX GUIDELINES

Modern SaaS-style interface; clean layouts with generous spacing; smooth page transitions; consistent button and card styles; interactive hover effects; sticky navigation with active menu highlighting; responsive mega menu; elegant gradients using primary and secondary colors; high-quality icons and illustrations; large hero banners with compelling calls to action; consistent design system across all pages.

DELIVERABLES

Fully responsive static website; complete HTML pages; modular CSS architecture; reusable JavaScript components; optimized images and assets; SEO-ready structure; W3C-valid HTML5; cross-browser compatibility; well-organized project folder; clean, maintainable, and documented source code.

NOTES

Use <https://itracker.com.bd> as inspiration for information architecture and user experience, while featuring a completely original visual identity and codebase. All content, images, icons, and graphics should be royalty-free or placeholders. No backend, database, authentication, payment gateway, or API integration required. Every page and component should be fully responsive and optimized for desktops, tablets, and mobile devices. Final design should establish Moventra as a premium technology brand focused on GPS tracking, fleet management, IoT solutions, and enterprise digital services.
